HEALTH & SAFETY

Our RMHC Global organization has instituted the following food safety standards:

- Food prepared at a licensed retail food establishment can only be accepted for donation if it has been protected from contamination and has been delivered directly from the licensed establishment within a short period of time
- Only packed foods purchased from retail grocery stores in unopened containers or whole fruits and vegetables can be accepted for donation
- We cannot accept donations of food prepared or cooked off-site by a volunteer or other groups or individuals (including casseroles, baked goods, etc.)
- All volunteers are required to wear gloves while working in the kitchen
- Children must be at least 12 years old to help cook in the large kitchen

INFECTIOUS DISEASES:

Preventing the spread of infectious diseases is extremely important because many RMHC children are immune-suppressed. If a member of your group has been exposed to any contagious or infectious diseases (colds, flu, COVID-19, etc.), they will not be permitted to volunteer or enter the House.
